- Attention to details

I`m a curious person and i want to learn as many things from the IT field as possible. This field has always fascinated me, but only recently I decide to follow this path. I took a Web Developer course because I really want to practice and create web/mobile applications as a web developer in a profile company.

Employment History

Marketing Specialist, SC ELMAS SRL, Brasov
2011 - PRESENT

The main responsibilities:

- Managing websites by adding new materials, pictures and videos using HTML and CSS.
- Managing Facebook and Instagram pages from Business Manager.
- Managing e-mail campaigns.
- Fortified market planning techniques to improve market sales.
- Working closely with sales teams to develop effective campaigns.
- Managing the participation at SEAP auctions providing daily information to the sales teams about the new auctions that appeared in the system.
- Participation at exhibitions for the presentation of new products and services.
- Taking photos or videos materials from clients.
- Competition analysis.

Internships

Junior Web Developer, Faro Development, Cluj Napoca
MAY 2021 – AUGUST 2021

The main skills and knowledge acquired during the internship:

- Building web applications using React, Material UI, Styled Components.
- Building reusable components.
- Learning how to use React Hooks, Context, React Router, Node.js, Npm libraries in my projects.
- Implement site templates or designs from Figma using React.
- Working with Agile methodology using Jira.
- Improving skills in Visual Studio Code (git management, shortcuts, branch control, merge control).
- Working with GitLab (manage merge request, review code, pipeline).
- Learning how to use Firebase in my projects (implement sign-up/login with email and password, Facebook, Google + adding data base).
- Working with API and mock API;
- Improving skills in Chrome DevTools (debug, inspect elements, console, networking).
- Experiencing work from home (remote work).
- How is working in a team on real projects.

Courses

Web Development, The Informal School of IT, Brasov
SEPTEMBER 2020 – FEBRUARY 2021

- Web Concepts: How the web works, Client-Server architecture, protocols.
- HTTP: fundamentals about the protocol: methods, status codes, headers, cookies and sessions.
- HTML and CSS: how to build a responsive User Interface with semantic HTML elements.
- JavaScript: how to use variables, primitive types, functions, hoisting, objects, scope, DOM, AJAX & Promises.
- OOP in JavaScript: prototypes, classes and inheritance in JavaScript.
- GIT: learned the principles and basic commands.
- jQuery: how to include it in a project and how to use it, why it's helpful, selectorsReact JS: how modern JS applications work, React components, props, state, JSX.
- Team project: built the front-end part of an IMBD-like application (using a provided API), with the following functionalities: CRUD operations on movies, basic search, pagination, registration and login; we've used GitHub for code versioning and Asana for the project management part.

Facebook Marketing, "Institutul de Marketing", Bucharest
MARCH 2016

- Learning how to use Facebook Ads, Business Manager and conducting campaigns using a well-defined target.

Education

Degree in Economic Sciences, Transilvania University of Brasov, Brasov
OCTOBER 2011 – FEBRUARY 2015

Hobbies

- Travels - I love to travel anywhere, it`s not so important where, it`s important to travel.
- Cycling - It`s another way to travel.
- Hiking - Lately i have developed a passion for mountain excursions, fortunately our country is full of spectacular mountain trails.

You can find more details about my hobbies by clicking on my online resume:
